„I have worked with many people over thirty years, and there are a handful that I would eagerly look forward to working with again; Tanja is at the top of that list.“

„I always found her to be a motivated and a hard working graduate. She never hesitated to ask for advice on how to improve her professional qualities and always responded favorably. In addition to being a talented and well rounded artist , Tanja is also a kind and thoughtful individual who manages to always bring a sense of calm while communicating with her peers, teachers and advisors.“

“I worked with Tanja on a traditionally drawn animation for Ridgefield National Wildlife Refuge. She created several backgrounds for the project. Tanja has a great eye for color, composition and texture. She was able to adjust her style to reflect the mood of the animation. Tanja is a hard worker who dedicates herself to any project she takes on.“
